☒ Examiner's Statement of Reasons for Allowance

Art Unit:

### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The applicant has amended the independent claims of the application to more clearly define the subject matter of the invention. In particular the applicant has indicated that the instant invention utilizes a dry powder agent that is not dissolved in a liquid for inhalation of the subject. All of the prior art of record indicates the use of a dry powder dissolved in a liquid form. Furthermore the instant invention seeks to actually narrow the airway in a subject or increase the osmolarity of the airway surface liquid in the subject to eventually treat the subject's respiratory problems. The prior art of record is directed toward decreasing such osmolarity and widening the subject's airway.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Huang whose telephone number is (703) 308-3399.
